## Product Data Sheet

# Husky® Green Fin Coil Protector Aerosol Kit

## Complete Aerosol Coating System for Small HVAC Coils

### Coating Characteristics:

Tensile: 3,740 psi (ASTM D-638)

Finish: semi-gloss

Shelf Life: 1 + yrs @ 77° F (25° C) unopened

Elongation: 430 % (ASTM D-2370)

Durometer: shore A 70 (ASTM D-2240)

Stone Abrasion: Excellent (ASTM D-3170)

Weatherability: U.V. 7-10 yrs. (ASTM G-53)

Operation Temperature Range: -30°-200° F (-34°-93°C)

Cut Resistance: Very Good (ASTM D-1044)

Salt Spray: Over 7,000 hrs (ASTM B-117)

### Corrosion Protection from:

Acids

Salt Air/Spray

Ammonia Fumes

Chlorine Fumes

Alkalis

Acid Rain

Sulfur Water

Muriatic Acid

Sulfuric Acid

Hydrogen Sulfide

Uric Acid/Urea

ASK FOR COMPLETE LIST

### Benefits:

- Extends equipment life
- Aids in preventing "dirty socks syndrome"
- Easy to apply by spray application.
- Installed system can be coated on site
- Easy to repair if damaged
- Aids in maintaining operating efficiency (*Saves unnecessary energy loss*)
- Affordable

### Coating Application:

The Bronz-Glow Husky Green-Fin Coil Coat Protector (aka: Green Fin Kit; Husky Kit) is specially designed for coating small tonnage residential air conditioning systems that are constructed with 1 or 2 row(s) of coils. Among these systems are window units, PTAC, and small tonnage condenser coils along with refrigeration or water fountain coils. The Bronz-Glow Husky Green Fin Kit was developed to provide quality and affordable corrosion protection for small a/c and refrigeration systems that are exposed to coastal environments by contractors and the do-it yourselfer. Over time, if the coating becomes abraded or damaged, it can be easily repaired with a touch up application.

The Husky Kit contains 1 (one) can of Husky Green Fin Cleaner, 1 (one) can of Husky Green Fin Primer and 2 (two) cans of Husky Green Fin Coil Coating. These replicate our in house coating process of Cleaning, Priming and Coating. The Husky Kit Wholesalers and contractors depend on the Husky Green Fin Kit to provide quick, affordable and long lasting corrosion protection for their valued customers.

### Color: Olive Green

**Coverage Rate:** One (1) Husky Green Fin Kit should coat the fin/tube coils of an average 2 ton condenser unit with up to 17 fins per inch (fpi)

**Packaging:** 4 Kits per case; 60 cases per pallet, Aerosol cans available of each part (cleaning, priming and coating) at 12 cans per case of same item.
